Re: **Anheuser-Busch, Inc. – Facility #A0606**
Minor Revision

Dear Mr. Broadbent:

This is to advise you that the Bay Area Air Quality Management District is issuing a minor revision to the Major Facility Review Permit for Anheuser-Busch, Inc. (Facility Number A0606).

The purpose of the minor revision is to permit three emergency standby engines.

The following changes were made after the minor revision was proposed:

- The references to the SIP in Sections III, IV, and XI were changed. The SIP is now available on EPA, Region IX's website.
- The citations for BAAQMD Regulation 9, Rule 8, Nitrogen Oxides and Carbon Monoxide from Stationary Internal Combustion Engines, which were omitted in error, have been added to Table IV-R for Sources S-143, S-144, and S-145, Standby Diesel Engine/Generators.
- The citations for Condition 18614 were corrected in Table IV-R to properly reflect the condition in Section VI.

A copy of the final Major Facility Review Permit is enclosed for your information. If you have any questions on this matter, please call **Steve Hill, Air Quality Engineering Manager, at (415) 749-4673**.

Very truly yours,

Ellen Garvey
